<p>DaSTS Goals</p> <ol style="list-style-type: none"> 1. To support national economic competitiveness and growth, by delivering reliable and efficient transport networks. 2. To reduce transport’s emissions of carbon dioxide and other green house gases, with the desired outcome of tackling climate change. 3. To contribute to better safety, security and health and longer life-expectancy by reducing the risk of death, injury or illness arising from transport and by promoting travel modes that are beneficial to health. 4. To promote greater equality of opportunity for all citizens, with the desired outcome of achieving a fairer society. 5. To improve quality of life for transport users and on-transport users, and to promote a healthy natural environment.
